

# Un

## John E. Trent, Laura Schnurr

**Act of Creation** Stephen C Schlesinger, 2009-04-24 In Act of Creation , Stephen C. Schlesinger tells a pivotal and little-known story of how Secretary of State Edward Stettinius and the new American President, Harry Truman, picked up the pieces of the faltering campaign initiated by Franklin Roosevelt to create a United Nations. Using secret agents, financial resources, and their unrivaled position of power, they overcame the intrigues of Stalin, the reservations of wartime allies like Winston Churchill, the discontent of smaller states, and a skeptical press corps to found the United Nations. The author reveals how the UN nearly collapsed several times during the conference over questions of which states should have power, who should be admitted, and how authority should be divided among its branches. By shedding new light on leading participants like John Foster Dulles, John F. Kennedy, Adlai Stevenson, Nelson Rockefeller, and E. B White, Act of Creation provides a fascinating tale of twentieth-century history not to be missed.

**The New United Nations** John Allphin Moore, Jr. Jerry Pubantz, 2015-09-21 A comprehensive guide to the world body's institutions, procedures, policies, specialized agencies, historic personalities, initiatives, and involvement in world affairs, The New United Nations is organized thematically, blending both topical and chronological explanations making reference to current scholarly terms and theories. The first textbook of its kind on the market, it presents the UN in its evolving role in this new era since the Cold War and shows its responsibilities for meeting challenges to the global community.

**Secretary or General?** Simon Chesterman, 2007-01-29 The Secretary-General of the United Nations is a unique figure in world politics. At once civil servant, the world's diplomat, lackey of the UN Security Council, and commander-in-chief of up to a hundred thousand peacekeepers, he or she depends on states for both the legitimacy and resources that enable the United Nations to function. The tension between these roles - of being secretary or general - has challenged every incumbent. This book brings together the insights of senior UN staff, diplomats and scholars to examine the normative and political factors that shape this unique office with particular emphasis on how it has evolved in response to changing circumstances such as globalization and the onset of the 'war on terror'. The difficulties experienced by each Secretary-General reflect the profound ambivalence of states towards entrusting their security, interests or resources to an intergovernmental body.

**Power of UN** Nancy Etchemendy, 2002-03-01 When he is given a device that will allow him to undo what has happened in the past, Gib Finney is not sure what event from the worst day in his life he should change in order to keep his sister from

being hit by a truck.

**An Insider's Guide to the UN** Linda Fasulo,2021-03-30 Thoroughly revised and updated, a new edition of the most popular guide to the UN for students and interested readers Prominent NPR journalist Linda Fasulo's guide to the United Nations has established a reputation as the most lively, authoritative, and insightful book on its subject. The fourth edition comes at a time when nuclear proliferation has moved to the top of the Security Council's agenda, followed closely by the Syrian crisis, the effects of climate change, and international terrorism. Thoroughly revised and updated, with many new profiles and interviews with the organization's current diplomats, this edition remains an indispensable resource for anyone wishing to understand the role and structure of the UN.

*The Essential UN.* United Nations,2018 Everything you always wanted to know about the United Nations in one book! This primer to the United Nations is designed for all global citizens. It covers the history of the UN, what it does and how it does it. As the world's only truly global organization, the United Nations is where countries meet to address universal issues that cannot be resolved by any one of them acting alone. From international peace and security to sustainable development, climate change, human rights, and humanitarian action, the United Nations acts on our behalf around the world. --

**The UN Security Council and the Maintenance of Peace in a Changing World** Congyan Cai,Larissa van den Herik,Tiyanjana Maluwa,2024-02-29 How can the UN Security Council contribute to the maintenance of international peace and security in times of heightened tensions, global polarisation, and contestation about the principles underlying the international legal and political order? In this Dialogue, experts with diverse geographic, socio-legal, and ideational backgrounds present their perspectives on the Security Council's historic development, its present functions and deficits, and its defining tensions and future trajectories. Three approaches engage with each other: a power-focused approach emphasising the role of China as an emerging actor; an institutionalist perspective exploring how less powerful states, particularly the elected members of the Security Council, exert influence and may strengthen rule-of-law standards; a regionalist perspective investigating how the Security Council as the central actor can cooperate with regional organisations towards maintaining international peace and security. This title is also available as Open Access on Cambridge Core.

**The Oxford Handbook of United Nations Peacekeeping Operations** Joachim Koops,Norrie MacQueen,Thierry Tardy,Paul D. Williams,2015-07-09 The Oxford Handbook on United Nations Peacekeeping Operations presents an innovative, authoritative, and accessible examination and critique of the United Nations peacekeeping operations. Since the late 1940s, but particularly since the end of the cold war, peacekeeping has been a central part of the core activities of the United Nations and a major process in global security governance and the management of international relations in general. The volume will present a chronological analysis, designed to provide a comprehensive perspective that highlights the evolution of UN peacekeeping and offers a detailed picture of how the decisions of UN bureaucrats and national governments

on the set-up and design of particular UN missions were, and remain, influenced by the impact of preceding operations. The volume will bring together leading scholars and senior practitioners in order to provide overviews and analyses of all 65 peacekeeping operations that have been carried out by the United Nations since 1948. As with all Oxford Handbooks, the volume will be agenda-setting in importance, providing the authoritative point of reference for all those working throughout international relations and beyond.

**Planet UN** Romuald Sciora, 2009 Accompanying CD-ROM includes interviews with the previous 5 UN Secretary-Generals of the; bibliography on the United Nations; and various documents relating to the history and work of the United Nations.

**The United Nations, Peace and Security** Ramesh Thakur, 2006-06-08 Preventing humanitarian atrocities is becoming as important for the United Nations as dealing with inter-state war. In this book, Ramesh Thakur examines the transformation in UN operations, analysing its changing role and structure. He asks why, when and how force may be used and argues that the growing gulf between legality and legitimacy is evidence of an eroded sense of international community. He considers the tension between the US, with its capacity to use force and project power, and the UN, as the centre of the international law enforcement system. He asserts the central importance of the rule of law and of a rules-based order focused on the UN as the foundation of a civilised system of international relations. This book will be of interest to students of the UN and international organisations in politics, law and international relations departments, as well as policymakers in the UN and other NGOs.

*UN Intervention Practices in Iraq* Kerstin Eppert, 2019-01-17 This book analyzes UN intervention discourses and practices in Iraq and develops a deconstructive approach to international interventions. Hitherto, most analyses of the conflict in Iraq in 2003 have established the UN's role as path-dependent on the foreign policy of the US and the UK, and largely portrayed it as a mediator and fervent opponent of international intervention. Analyzing the UN Security Council and the later UN Assistance Mission for Iraq (UNAMI) from 2000 to 2010, this book undoes this path-dependency and puts the UN's relationship with Iraq center-stage. It develops a deconstructive, critical approach that identifies subject construction and reflexivity as central processes of intervention practices and concludes that (non-)intervention is deeply connected to the stabilization of political identities and representations. Using extensive primary data, the book contributes a new perspective on international interventions. This book will be of much interest to students of peace and conflict studies, intervention and statebuilding, Middle Eastern studies and International Relations.

*A United Nations Renaissance* John E. Trent, Laura Schnurr, 2017-12-04 This short introduction to the United Nations analyzes the organization as it is today, and how it can be transformed to respond to its critics. Combining essential information about its history and workings with practical proposals of how it can be strengthened, Trent and Schnurr examine what needs to be done, and also how we can actually move toward the required reforms. This book is written for a new

generation of change-makers — a generation seeking better institutions that reflect the realities of the 21st century and that can act collectively in the interest of all.

**The United Nations** Jussi M. Hanhimäki, 2015 A clear, compact, and accessible introduction to the United Nations. In this fully updated edition, Hanhimäki examines the UN's history and future prospects. The book evaluates the UN's successes and failures, aiming to debunk some of the persistent myths that swirl around what is ultimately an indispensable global organization.

Charter of the United Nations and Statute of the International Court of Justice United Nations, 2015-08-30 The Charter of the United Nations was signed in 1945 by 51 countries representing all continents, paving the way for the creation of the United Nations on 24 October 1945. The Statute of the International Court of Justice forms part of the Charter. The aim of the Charter is to save humanity from war; to reaffirm human rights and the dignity and worth of the human person; to proclaim the equal rights of men and women and of nations large and small; and to promote the prosperity of all humankind. The Charter is the foundation of international peace and security.

**Realizing the Right to Development** United Nations. Office of the High Commissioner for Human Rights, 2013 This book is devoted to the 25th anniversary of the United Nations Declaration on the Right to Development. It contains a collection of analytical studies of various aspects of the right to development, which include the rule of law and good governance, aid, trade, debt, technology transfer, intellectual property, access to medicines and climate change in the context of an enabling environment at the local, regional and international levels. It also explores the issues of poverty, women and indigenous peoples within the theme of social justice and equity. The book considers the strides that have been made over the years in measuring progress in implementing the right to development and possible ways forward to make the right to development a reality for all in an increasingly fragile, interdependent and ever-changing world.

The Universal Declaration of Human Rights, 1978

*Failing to Protect* Rosa Freedman, 2015 BL Explains why the respect in which the UN is held is not matched by admiration for its practical attempts to safeguard human rights.

**Reforming the United Nations** K. P. Saksena, 1993 Focuses on the economic and social sectors of the United Nations. Reviews the organizational setup, identifies areas of overlapping activities, examines the relevance of various programmes and makes proposals for change. Includes the text of the Charter of the United Nations.

**The Law and Practice of the United Nations** Benedetto Conforti, Carlo Focarelli, 2016 The Law and Practice of the United Nations examines the law of the United Nations through an analysis of the Organization's practice from its inception until the present, in particular to the transformations the UN has undergone since the end of the Cold War. Special consideration is given to Chapter VII of the UN Charter and its interpretation, the United Nations' membership and organs'

competences, along with the peaceful settlement of disputes, and coercive action for the maintenance of international peace and security. In addition, this important new edition explores such areas as general and smart sanctions, peacekeeping, authorizations of the Security Council, territorial administrations, self-determination, human rights, financing of the Organization, acts adoptable by the UN organs, and a review of their legality. Offering a fully revised and updated analysis of the main legal issues surrounding the United Nations' practice, *The Law and Practice of the United Nations* will be of interest to all those involved with legal issues surrounding the United Nations, the analysis of said issues, and their impacts on international practice

*The Procedure of the UN Security Council* Loraine Sievers, Sam Daws, 2014 This text is a revised edition and contains new material documenting the extensive and rapid innovations in the UN Security Council's procedures of the past two decades. It provides insight into the inside workings of the world's pre-eminent body for the maintenance of international peace and security. Grounded in the history and politics of the Council, it describes the ways the Council has responded through its working methods to a changing world. It explains the Council's role in its wider UN Charter context and examines its relations with other UN organs and its own subsidiary bodies.

## Whispering the Strategies of Language: An Psychological Journey through **Un**

In a digitally-driven world wherever screens reign great and quick connection drowns out the subtleties of language, the profound strategies and mental subtleties concealed within words frequently get unheard. However, situated within the pages of **Un** a captivating literary value pulsating with raw emotions, lies an extraordinary quest waiting to be undertaken. Penned by a talented wordsmith, this enchanting opus invites visitors on an introspective trip, softly unraveling the veiled truths and profound affect resonating within ab muscles cloth of each and every word. Within the emotional depths with this poignant review, we shall embark upon a genuine exploration of the book is primary styles, dissect its fascinating publishing type, and yield to the powerful resonance it evokes heavy within the recesses of readers hearts.
