Writing on the Wall Madeleine Pelling, 2024-03-28 'Fascinating ... not only a history of graffiti, but also a history of the 18th century through lost voices of the people who lived through it.' The Times What if walls could talk? For historian Madeleine Pelling, they can - if you know where to look. A brilliant new cultural history of the long eighteenth century, *Writing on the Wall* is told through the marks its citizens left behind, bringing into focus lost voices from the highest to the lowest in society. From the centre of London to the islands of the Caribbean, Pelling goes in search of graffiti, evidence of how ordinary people experienced the world-changing events that defined their lives - from political prisoners to sex workers, homesick sailors, Romantic poets and the artisans of the industrial revolution. Here are lives, loves, triumphs and failures, scratched into the walls of prisons and latrines, chalked up on doors and etched into windows. The names of their creators may be lost to history, but together they tell the real story of Britain's most rebellious and transformative century.

The Emotions Rom Harré, W Gerrod Parrott, 1996-06-27 'There is much that is fascinating here. Long-established experiments and conclusions are rubbished and reinterpreted, long-established assumptions and beliefs about emotions are soundly trounced, and generally a good going-over is delivered to the whole field... it is such a blockbuster that one can only reel backwards and tell anyone studying the subject that they would be crazy not to get it' - *Self & Society* This fascinating book overviews the psychology of the emotions in its broadest sense, tracing historical, social, cultural and biological themes and analyses. The contributors - some of the leading figures in the field - produce a new theoretical synthesis by drawing together these strands. From the standpoint of the function of the emotions in everyday life, the authors focus on: the discursive role played by the emotions in expressing judgements about, attitudes to and contrition for actions done by the self and others, and how certain emotions - such as guilt, shame, embarrassment, chagrin and regret - seem to play a role in social control; the variation and diversity in emotion, which provides scope for exploring how patterns of emotion contrast in different societies, across gender lines, at different historical times, and between children and adults; and the way in which

the body is shaped and its functions influenced by culturally maintained patterns of emotion displays.

No Period Harry Turtledove, 2020-11-30 A man sets out to tell a story of his ex, which in turns becomes a story of the world. If only he could change that story—find the moment where it all began and alter the past. But what if he can't find the beginning—or even the end? The Relevance of Alan Watts in Contemporary Culture Peter J. Columbus, 2021-03-31 Whilst accounting for the present-day popularity and relevance of Alan Watts' contributions to psychology, religion, arts, and humanities, this interdisciplinary collection grapples with the ongoing criticisms which surround Watts' life and work. Offering rich examination of as yet underexplored aspects of Watts' influence in 1960s counterculture, this volume offers unique application of Watts' thinking to contemporary issues and critically engages with controversies surrounding the commodification of Watts' ideas, his alleged misreading of Biblical texts, and his apparent distortion of Asian religions and spirituality. Featuring a broad range of international contributors and bringing Watts' ideas squarely into the contemporary context, the text provides a comprehensive, yet nuanced exploration of Watts' thinking on psychotherapy, Buddhism, language, music, and sexuality. This text will benefit researchers, doctoral students, and academics in the fields of psychotherapy, phenomenology, and the philosophy of psychology more broadly. Those interested in Jungian psychotherapy, spirituality, and the self and social identity will also enjoy this volume.
