Practice Tests in Math Kangaroo Style for Students in Grades 1-2 Cleo Borac, Silviu Borac, 2014-06-06 A companion series to our Competitive Mathematics for Gifted Students, the series Math Challenges for Gifted Students offers additional material in practice test form. The workbooks are useful for assessment and for development of testing skills. In full color and with fully detailed solutions, the workbooks may be used as a fun introduction to competitive problem solving. However, the problems are a bit more difficult than actual Kangaroo problems, exploring a large number of known 'tips and tricks.' One could say it is much more concentrated in that, unlike actual exams, it has less 'filler' - almost every problem is 'tricky' and embodies a specific strategy. The material is excellent for training purposes and has been used by the authors in seminars with hundreds of the most gifted students in the Bay Area. The workbook contains six 24-question tests. After each test there is an answer key. The tests are followed by detailed solutions. The recommended time limit for each test is of 75 minutes.

Students who have not been exposed to competitive problem solving will find this book extremely difficult and will need help from an adult. Without preparation, students who get 'A' in school generally score about 50 points out of 96 possible on Kangaroo level 1-2.

The Cailiffs of Baghdad, Georgia: A Novel Mary Helen Stefaniak,2011-09-19 A hidden history of the South emerges when a worldly teacher leads Threestep, GA, to reinvent itself, setting in motion events that lead to triumph and tragedy for the black teenager who happens to be the smartest person in Piedmont County, Georgia, in 1938-39. As an epigraph from The Souls of Black Folk by W. E. B. Du Bois reminds us at the start of this novel, Throughout history, the powers of single black men flash here and there like falling stars, and die sometimes before the world has rightly gauged their brightness. Protagonist Theo Boykin is a genius, an artist, an inventor, a Leonardo DaVinci-type, whose talents are sought after by local blacks and whites alike, but even this is not enough to save him. He falls victim to the tragedy of ignorance and the damage caused by fear, in the words of poet Rita Dove—the first African American to serve as U.S. Poet Laureate and a member of the jury that conferred on The Cailiffs of Baghdad, Georgia the 2011 Anisfield-Wolf Award for books that make a significant contribution to our understanding of racism and our appreciation for the diversity of human cultures. You won't forget Theo Boykin, nor will you forget his friends the Cailiffs, especially Gladys, who tells this story with love and bewilderment, and the teacher, Miss Spivey, who changes all their lives.
